Position:	Project Engineer / CAD Designer
Location:	Indianapolis, IN
Start Date:	Immediately

Job description

Do you have a passion for civil / site development and the built environment? Due to the nature of our business and the clients we serve, this position requires experience in civil / site development. Ideally, you've been working for a few years in a civil engineering firm, environmental engineering firm or landscape architecture firm designing projects involving site/land development or planning. Projects you'll be assigned to projects including (but not limited to) commercial developments (corporate, industrial, retail, healthcare, institutional), as well as residential communities, (single-family, multi-family, senior living).

As a Civil / Site CAD Designer at Weihe Engineers, you will work alongside our clients from project inception to final delivery to provide the confidence they need in a quality site design for their development. CAD drafting and site design is an integral part of the overall project development and this position will be a key part of the team. Plan-graphics review and quality control are vital to every project we deliver. Each of our projects are unique so, if you want to do the same thing day-in and day-out, this job is not for you.

Note, our requirements below are absolutely necessary. Please do not apply if you do not meet these requirements... check out our other open positions that you may be better qualified to have success.

Requirements

- At least three (3) years of relevant experience in site development projects
- AutoCAD Civil 3D experience is required
- High School diploma or equivalent
- EIT or PE preferred; however, not mandatory

Skills and Abilities:

- Ability to perform drafting and design tasks related to commercial and residential site design
- Proficiency in grading, drainage and sanitary calculation and design
- Great attitude and work ethic is a must to be a part of our team
- Ability to work well in a small team setting
- Ability to multi-task efficiently
- Willingness to contribute when and where needed

Compensation and Benefits

- Compensation is highly commensurate with experience
- Extremely competitive benefits package available
- Opportunities for advancement
